### Measure Water Level & Draw Down

- 4 mm (0.157") or 10 mm (3/8") diameter stainless steel probes
- P10 has segmented weights for flexibility
- LED Light and loud buzzer indicates water level
- Adjust sensitivity to suit your application
- Clearly-marked cable with greater flexibility and abrasion-resistance

**Imperial** - marked every 1/100 ft  
(lengths to 1000 ft)

**Metric** - marked every mm  
(lengths to 300 m)

The Laser Marked Model 102 Water Level Indicator is designed to accurately measure groundwater levels in small diameter applications.

The [102M Mini Water Level Indicator](#) is available (lengths of 80 ft or 25 m).

## Related Products

### Flat Tape Water Level Meters

- Extremely durable PVDF flat tapes
- Tapes are laser marked every 1/100 ft or mm
- Tape lengths to 5000 ft (1500 m)
- Pressure-proof P7 Probe for total well depths up to 1000 ft

### Water Sampling Peristaltic Pumps

The [Model 410 Peristaltic Pump](#) is rugged, compact and lightweight.

- Variable flow rates from 40 ml/min to 3.2L/min
- Reversible flow
- 12V power source to operate
- Convenient add-on 12V Battery Holder

### Well Casing & Depth Indicator

The [Model 105 Well Casing & Depth Indicator](#) detects metal well casing and measures total well depth using one probe. Depths are read from durable Solinst laser marked flat tape.

### Drive-Point Multilevel System

The [615ML Multilevel Drive-Point System](#) allows monitoring of up to 6 zones in one drive, using ports with a dual barb stem to attach either 1/4" or 3/8" OD tubing. Install using extensions and a Manual Slide Hammer, similar to standard 615 installations, for high-resolution vertical groundwater or soil gas profiling.

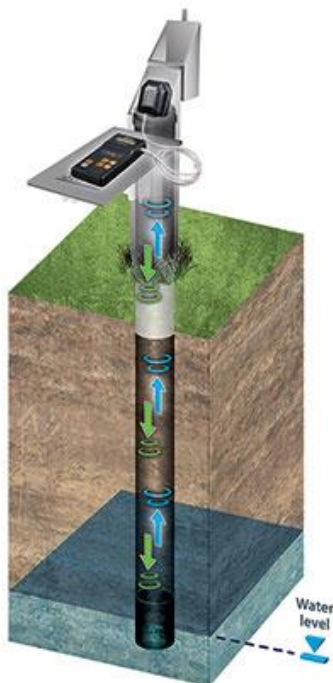

### Make Your Life Easier In The Field

Consider making your life easier in the field by ordering one of our convenient Field Tables. We have two models available, Well-mount and Stand-alone, to keep your equipment organized and provide a clean, sturdy surface to hold your field tools.

Well-mount Field Table - 115209

Stand-alone Field Table - 115312

## [Solinst Sonic Water Level Meter](#)

The [104 Solinst Sonic Water Level Meter](#) is a portable, acoustic ranging instrument designed to simply and quickly provide depth to static water level measurements down to 600 m (2000 ft), without the need to lower equipment down a well. Ideal for straight, crooked, narrow, hard to access, or contaminated wells.
