Sokkia Digital Theodolites

Sokkia electronic digital theodolites and laser digital theodolites are well known for their high quality, numerous features, and durable reliability in the field. Surveyors and engineers rely on Sokkia theodolites every day around the world because they know that they can depend on them to consistently produce accurate measurements.

Sokkia's DT series of electronic digital theodolites offers numerous advanced features such as highly sophisticated absolute encoders, exceptionally low power consumption and long battery life. In addition all models meet strict IP66 standards for waterproof and dustproof operation making them an excellent choice for field work where a rugged theodolite is a necessity.

Sokkia LDT series laser digital theodolites feature the longest laser range available (2,000ft/600m) as well as absolute encoders which are engineered for superior reliability and reduced power consumption. Sokkia LDT laser digital theodolites also feature variable laser output, can emit parallel and focused laser beams, and are engineered to be IP66 compliant for dustproof and waterproof operation.

If you're looking for top-notch surveying instrumentation that makes your work easier then look no further than Sokkia. Before you rent surveying equipment and pay those expensive rental charges spend some time browsing our site to see how much you can save on new and used survey instruments and tools. Our goal is to help you save big on all of the tools you need to get your work done quickly and accurately. Be sure to bookmark our site and check back often to find the best deals on surveying equipment that you'll find anywhere.

Explore our site and check out the wide variety of new and used Sokkia theodolites and other surveying instruments available for sale at discount prices as a result of our innovative partnership with eBay. We're confident that you won't find a better selection of equipment or lower prices anywhere else. If you don't see the brand or model of equipment that you're looking for use our equipment search to perform a comprehensive search of all available inventory to find exactly what you need.
