

## NEW MARMIN outdoor handhelds GPS ETRAX 32X

### **Description**

Explore confidently with the reliable handheld GPS. eTrex 32x and eTrex 22x offer the same ease-of-use, durability and affordability that the eTrex handheld GPS series is known for — along with preloaded TopoActive Europe maps. These devices are perfect for quad bikes, bicycles, boats or hiking.

- **2.2" sunlight-readable colour display with 240 x 320 display pixels for improved readability**
- **Preloaded with TopoActive Europe maps with routable roads and trails for cycling and hiking**
- **Support for GPS and GLONASS satellite systems allows for tracking in more challenging environments than GPS alone**
- **8 GB of internal memory for map downloads plus a microSD™ card slot**
- **eTrex 32x adds a 3-axis compass and barometric altimeter**
- **Battery life: up to 25 hours in GPS mode with 2 AA batteries**

eTrex 22x and 32x offer enhanced 2.2", 65K colour, sunlight-readable displays. Durable and water resistant, these handhelds are built to withstand the elements.

The eTrex 22x and 32x handheld devices come preloaded with road-routable TopoActive Europe maps that feature streets and trails so you can take the journey off the grid. Now you can know your surroundings — such as waterways, natural features as well as buildings, international boundaries and more. You can also find thousands of points of interests, including shops, restaurants, universities, car parks and accommodations.

The eTrex series uses both GPS and GLONASS satellite systems so the receiver has the ability to track in more challenging environments than GPS alone. eTrex 32x adds a 3-axis compass and barometric altimeter, making it easy for you to keep your bearings.

With a microSD card slot and expanded 8 GB of internal memory, you can easily download

additional maps for wherever the adventure takes you.

**Both devices support BirdsEye Satellite Imagery (subscription required), so you can download and integrate satellite imagery with your maps.**

eTrex 22x and eTrex 32x support paperless geocaching. Upload GPX files straight to your device, and view key information such as location, terrain and hints from Geocaching.com.

With an array of compatible mounts, eTrex is designed as an outdoor handheld GPS ideal for use on quad bikes or bicycles, in boats or on foot. Use the auto mount capability and City Navigator® NT maps for turn-by-turn driving directions, or use the rugged mount for your motorcycle or quad bike. Wherever you think you might take eTrex, it has the mapping and mounts to get you there.
